N130 SERIES
Single Pivot Door

Commercial Pivot Storefront Door System

Architectural aluminum pivot door system with self-closing pivot hinge hardware, long architectural pull handle, high-security locking, laminated safety glass, and black commercial-grade finish.

ENGINEERED | PRECISE | RELIABLE

[NIXADOORS.COM](https://nixadoors.com)

DESIGNED FOR ARCHITECTURAL ENTRANCES

The N130 Series is a prehung aluminum commercial pivot storefront door system built for modern entrances that require clean architectural lines, smooth pivot movement, secure access, and durable daily performance. Its pivot hinge system creates a refined entrance experience without the look of a standard hinged storefront door.

DETAILS THAT SUPPORT MODERN ACCESS

The N130 Series is built for commercial entrances that need refined pivot operation, reliable security, and a premium architectural presence.

BUILT FOR

Commercial Entrances

Retail Buildings

Office Buildings

Hospitality Spaces

Modern Architectural Storefronts

High-Traffic Commercial Access Points

Offset Pivot System

Pivot hardware creates smooth movement and a clean architectural look without traditional side hinges.

Long Architectural Pull

Full-height pull handle gives the entrance a premium commercial appearance.

Self-Closing Pivot Hinge System

Self-closing pivot hinge supports smooth movement without a surface-mounted closer.

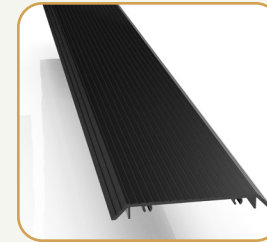

High-Security Locking System

USA-certified locking hardware supports controlled exterior access.

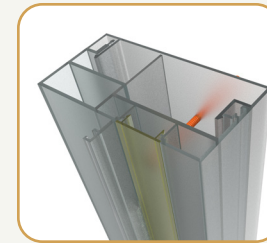

Advanced Sealing

998-grade silicone sealant helps create a durable weather-resistant bond.

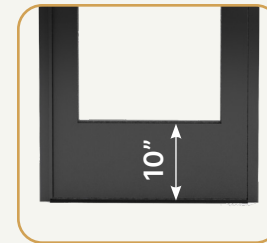

ADA Low-Profile Threshold

1/2 in. low-profile threshold supports smoother, more accessible entry.

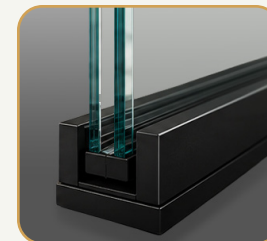

Hidden Fastener Frame

Concealed channels create a clean finish with reduced visible hardware.

10 in. Kick Plate Protection

Heavy-duty kick plate helps protect against scuffs, carts, and foot traffic.

Laminated Safety Glass

1.3 mm PVB laminated glass improves safety, sound control, and impact resistance.

Structural Aluminum Frame

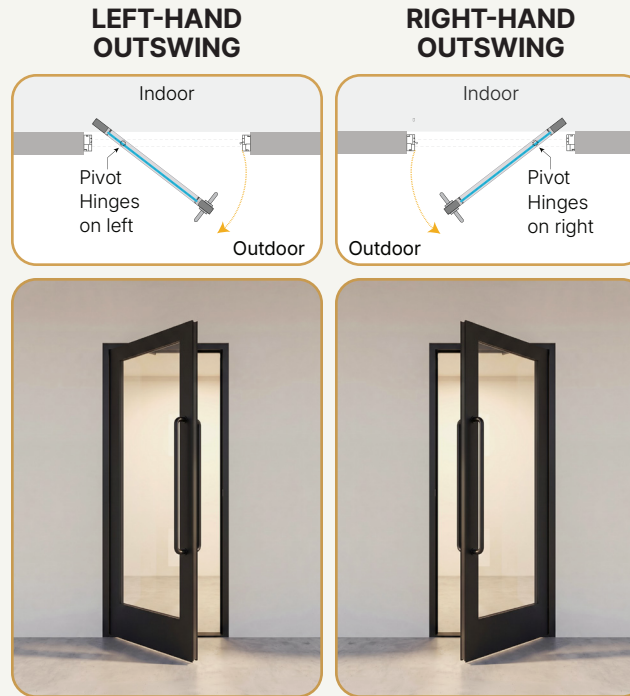

2.1 mm aluminum profiles with 3.2 mm brackets provide commercial-grade strength.
